ACTION ITEMS

5 Things to Do in Your First Week

These quick steps will make your site feel completely yours and help customers find you faster.

1

Upload your best cake photos to the Gallery

The gallery is the first thing new customers explore. Add your most recent custom cakes, cupcakes, and food truck shots from Instagram. Aim for 20–30 real photos.

2

Add your next 3 upcoming events to "Find Our Truck"

Customers love knowing where to find you. Keeping this section updated drives real foot traffic to your booth and truck.

3

Share your new website link on Instagram and Facebook

Post: *"We just launched our new website! 🍰 Visit sweetkonfections.com to browse our menu, view the gallery, and place your order."* — and add the link to your Instagram bio.

4

Update your Facebook page profile and cover photo

A complete Facebook profile builds trust and helps customers find you in search. Add a clear profile photo (your logo or a great product shot) and a cover photo showing your truck or a beautiful cake spread.

This takes 5 minutes and makes a huge first impression

5

Ask your 5 most recent customers to leave a Google review

Text them directly: *"Hey! I just launched a new website — would you mind leaving a quick Google review for Sweet Konfections? It really helps! 🙏"* Five new reviews can double your local search visibility.
