ABOUT LAUNCH AI GROUP

We Help Small Businesses Grow — With Strategy, Tech, and Heart

Launch AI Group is a business development and digital marketing firm specializing in helping small and minority-owned businesses build their brand, automate operations, and grow revenue in 2026. We're not an agency — we're a growth partner. We sit at the table with you.

Marketing & Brand Strategy

AI Automation & Lead Generation

Website Design & Development

Social Media Growth

Business Development Consulting

Event Business Consulting

Our team brings 15+ years of marketing experience, an MBA background, and deep expertise in finance, operations, and business strategy. We've worked with businesses across food service, retail, professional services, and event industries.

Our mission: Helping small Black-owned businesses compete at the highest level by giving them the same digital tools, strategy, and automation that big brands use — at prices that make sense for a growing business.

CURRENT SITUATION

What We Found When We Looked at Sweet Konfections Online

You've built something real — loyal customers, a thriving festival circuit, and a strong community following across Maryland, Baltimore, and Delaware. But the digital side isn't matching the quality and hustle of what you actually do. Here's what we noticed:

The Opportunity: Festivals + Private Events

Sweet Konfections already has a strong festival presence across Maryland, Baltimore, and Delaware — AFRAM, Moonewell, Hentastic Harvest, wine festivals, and more. The next step is pairing that visibility with a private event booking pipeline: weddings, corporate parties, and celebrations that book weeks in advance, pay more per event, and create predictable income alongside the festival circuit.

Bakesy.app Ordering System

Third-party platform takes a cut of every sale. No brand control, no customer data, no customization. You're building their customer list, not yours.

Website Needs a Refresh

Current site doesn't reflect the quality of your product or your festival reach. Customers judge your business within 3 seconds of landing on your page.

No Local SEO Pages

When people in Baltimore, Westminster, or Wilmington DE search "dessert food truck near me," you're not showing up — even though you've already been there.

No Automated Follow-Up

Festival visitors who scan a QR code or visit your site but don't book right away disappear. Automated follow-ups recover that interest and convert it into revenue.

Festival Traffic Not Being Captured

Hundreds of people see the truck at every festival. Without a QR code or signup system, that foot traffic evaporates. We turn every festival into a list-building event.

No Private Event Booking Pipeline

Private events pay more and are more predictable than festivals. A booking funnel on your website turns every site visitor into a potential \$500–\$2,000 event booking.

WHAT'S ALREADY DONE

We Built Your New Website — 9 Pages, Ready to Launch

Before this meeting, we built a complete 9-page website for Sweet Konfections. Not a template — a fully custom site designed specifically for your brand, your menu, and your customers. Here's what's included:

Homepage

High-conversion homepage with AI chatbot, social links, trust bar, and mobile CTA

Treats Page

Full treats menu — candy apples, cake pops, cookies, strawberries, gift boxes

Cakes & Pies

Traditional baked goods — red velvet, sweet potato pie, pound cake, and more

Custom Cakes

Custom cake order form with occasion selector, flavor, servings, budget, and vision description

Party Packages

3 packages with full FAQ — Sweetie, Konfections Party, and Food Truck Event

Order Page

Direct online order form with sidebar quick links — replaces Bakesy with zero platform fees

Consultation Page

Booking form for free consultations — captures lead info and event details automatically

Gallery

Filterable photo gallery — custom cakes, treats, party setups, food truck (ready for your real photos)

Testimonials

Full reviews page with rating bar, featured quote, and Google/Facebook review links

Photo note: Your gallery currently has placeholder images. Your Instagram @sweet.konfections has incredible photos of your cakes, treats, and food truck — share your favorites with us and we'll swap the placeholders out before launch. The site will reflect exactly the quality of work you actually do.

THE BAKESY PROBLEM

Stop Paying a Platform Fee on Every Sale You Made

Bakesy.app is a generic ordering platform that takes a cut of your revenue, controls your customer data, and puts your brand in a box. Here's what changes when you own your own ordering system:

✗ Bakesy.app (Current)

- ✗ Platform fee on every transaction
- ✗ You don't own your customer list
- ✗ Generic branding — looks like everyone else
- ✗ No automated follow-up on abandoned carts
- ✗ Limited customization and control
- ✗ Powered by their brand, not yours

✓ Launch AI Platform (New)

- ✓ Zero platform fees — 100% revenue stays with you
- ✓ Full customer database — you own every contact
- ✓ Fully branded to Sweet Konfections
- ✓ Automated order confirmations and reminders
- ✓ Complete control over pricing and promotions
- ✓ Powered by your brand

REVENUE GROWTH STRATEGY

10 Creative Ways We Can Help Sweet Konfections Sell More Sweets

Beyond the website — here are specific strategies we can implement to grow your revenue, reach new customers, and build loyalty with existing ones.

Social Media

Seasonal Revenue

Weekly "Behind the Bake" Reels

Short TikTok/Instagram Reels showing cake decorating, treat-making, and food truck prep. Behind-the-scenes content gets 3–5x more reach than product photos alone.

Holiday Pre-Order Campaigns

Automated email/SMS campaigns before Mother's Day, Thanksgiving, Christmas, and Valentine's Day. Capture early orders and avoid last-minute chaos with a pre-order window.

Corporate Sales**B2B Dessert Packages for Offices**

Monthly dessert subscriptions for local businesses — office parties, employee appreciation, client gifting. One corporate client can equal 12 monthly orders on autopilot.

Festival Strategy**Turn Festival Foot Traffic Into Bookings**

You're already at AFRAM, Moonewell, Hentastic Harvest, wine festivals, and more. A QR code at the truck + a simple SMS opt-in captures every visitor. That festival crowd becomes your private event pipeline — and makes every run more profitable.

Referral Growth**"Share & Save" Referral Program**

Give existing customers a discount code to share with friends. Every referral gets tracked automatically — no manual work for you. Word-of-mouth is your strongest channel.

Event Bundling**Wedding Vendor Partner Network**

Partner with local wedding venues, photographers, and planners to be their preferred dessert vendor. Each partner sends you a steady stream of qualified leads.

Digital Menu**QR Menu Cards for the Food Truck**

Printed QR cards at the truck that take customers straight to your website to book the truck for their own event. Turn every food truck customer into a future booking.

Customer Retention**Birthday & Anniversary Reminders**

Collect customer birthdays at checkout. Automated emails go out 2 weeks before their birthday with a special discount. Turns one-time buyers into yearly customers.

LOCAL SEO STRATEGY**Get Found When People Search in Your Backyard**

You're already showing up at festivals in Baltimore, Westminster, and Delaware — but when someone who saw your truck searches "dessert food truck near me" the next day, your website isn't there. City SEO pages fix that permanently. We build pages for every city you serve so you show up when people search.

**Baltimore, MD****Prince George's County****Anne Arundel County****Westminster, MD****Howard County****Bowie, MD****Columbia, MD****Laurel, MD****Annapolis, MD****Wilmington, DE****Newark, DE****Dover, DE**

Each city page targets searches like "custom cakes in Baltimore" or "dessert food truck Wilmington Delaware."

People who discover you at a festival, search for you after — and these pages make sure they find you. They take 3–6 months to rank but deliver free, consistent traffic permanently.

YOUR OPTIONS

Built for You — And Easy for You to Manage

Every website we build is delivered on **WordPress + Elementor** — the most popular website platform in the world. That means you get a professional, custom-designed site AND the ability to manage it yourself with zero coding.

What You Can Update Yourself

- ✓ Swap photos — drag and drop
- ✓ Update prices and menu items
- ✓ Add upcoming events to "Find Our Truck"
- ✓ Edit your About section anytime
- ✓ Add new gallery photos after festivals
- ✓ Post announcements and specials

What's Included at Launch

- ✓ WordPress + Elementor fully set up
- ✓ All 9 pages built and live on your domain
- ✓ Your login credentials + dashboard access
- ✓ Free "Get Started" setup guide included (or add a \$100 live walkthrough session)
- ✓ "How to update your site" quick reference guide
- ✓ 30 days of support after launch

INVESTMENT OPTIONS

Plans That Grow With You

Every plan starts with your new website fully launched and ready. Choose the level of ongoing support that makes sense for your stage of business right now.

Full Service

\$597

per month

+ \$200 Website Launch Fee (one-time)

- ✓ Everything in Growth
- ✓ Full social media management (daily)
- ✓ Launch AI Platform — booking automation
- ✓ Customer birthday/anniversary email campaigns
- ✓ Corporate outreach campaign setup
- ✓ Referral program setup and tracking
- ✓ Full 12-page city SEO buildout
- ✓ Bi-weekly strategy calls

No long-term contracts. Cancel anytime with 30 days notice. All plans include the full 9-page website.

ONE-TIME WEBSITE LAUNCH FEE

Get Your Entire Website Live for \$200

One flat fee. No surprises. We build it, set it up on WordPress so you can manage it yourself, walk you through everything, and hand you the keys — all for \$200.

\$200

Website Launch Fee — One Time

Everything built, live on your domain, on WordPress + Elementor so you're in full control. This is the starting point — monthly plans are available if you want us to grow with you, but the \$200 gets you fully launched with no strings attached.

- ✓ All 9 fully designed pages live on your domain
- ✓ AI chatbot + order forms included
- ✓ Free "Get Started" setup guide OR \$100 live walkthrough session
- ✓ WordPress + Elementor setup (you can edit everything)
- ✓ Mobile responsive — looks great on any device
- ✓ 30 days of support after launch

Want to start with the \$200 Launch and add a monthly plan later? The launch fee applies toward any plan you choose within 60 days.

Ready to Grow Sweet Konfections?

Whether you start with the \$200 website launch or jump straight into a monthly plan — the work is done and ready to go. Let's get your brand the visibility it deserves.
