A full website built before we even asked — here's what we made

Hi Shannon,

Hope you're doing well! I wanted to share something with you that I think you're really going to love.

We spent some time looking at your brand, your menu, and everything you've built with Sweet Konfections — and honestly, we were impressed. You've got an amazing product, a loyal following on Instagram, and a food truck experience that people clearly love. But the digital side wasn't quite matching the quality of what you actually do.

So we went ahead and built it.

Here's what we built for Sweet Konfections:

A complete 9-page website — homepage, full menu pages, custom cake ordering, party packages, gallery, testimonials, consultation booking, and an online order form. All branded to your colors, your vibe, and your customers. Plus an AI chatbot so visitors can get answers 24/7.

9 Pages — All Built & Ready

Homepage

Full hero, trust bar, menu preview, food truck section, AI chat, social links

Treats Page

Candy apples, cake pops, strawberries, cookies, gift boxes, and more

One Thing We Need From You

Your Instagram **@sweet.konfections** has gorgeous photos of your cakes, treats, and food truck. The gallery and homepage are ready — we just need your best 10–15 photos to swap in the placeholders. Send them our way and we'll have the full site looking exactly like your real work before we go live.

We also noticed you're using Bakesy.app for online ordering. That platform charges a fee on every sale you make. Our new order page routes everything directly to you — no middleman, no platform fees. You keep 100%.

In terms of what this looks like going forward, here are your options:
